DETAILED ACTION

Allowable Subject Matter

1. Claims 1-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:
 - 2.1 Referring to the independent claims 1, 13, 21, 33 and 40, Ray (U.S. Patent No. 5,673,320) discloses a method for image based validation of a document (see abstract). Ray teaches converting information of a printed document into a storable digital image thereby creating an electronic document (see abstract and Fig 2). The reader (unit 22 in Fig 2) reads the document and converts the image information into digital image format, which is stored in a data storage (unit 24). The digital image data is encrypted and the encoded authorization data is formulated for the document (see abstract and column 2 lines 60 - 68). Ray, however, does not teach the parallel approval of an electronic document by the plurality of users. Per Applicant's amendment of the independent claims 1, 13, 21 and 33 *parallel approval of an electronic document* is not only included in the preamble, but is recited in the instant claims. Furthermore Ray, does not teach or suggest storing approval information in a user Approval Data Packet.
 - 2.2 Referring to the independent claim 40, Ray does not teach having an electronic document made available to each user of a plurality of users and having each user of a plurality of users approve the electronic document.
 - 2.3 In view of the reasons presented herein claims 1-46 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
